Preamble

The States Parties to this Convention:

Recognizing that protecting integrity and combating corruption in all its forms are amongst the established principles of Islamic Sharia and international laws,

Being guided by the principles and objectives stipulated within the Charter of the OIC, in particular Article 1, paragraph 18, which states “To cooperate in combating terrorism in all its forms and manifestations, organized crime, illicit drug trafficking, corruption, money laundering and human trafficking”,

Reaffirming the United Nations Convention against Corruption (UNCAC) and recalling its relevant provisions thereof and resolutions of the Conference of States Parties to the UNCAC which encourage to promote informal channels of communication with one another in particular prior to making formal requests for mutual legal assistance,

Expressing their support for the international criminal justice cooperation, which aims to serve the actual needs of all States to combat crimes that are positively and negatively affected by the extent of effectiveness of the international criminal justice cooperation and its mechanisms in countering and prosecuting criminal acts,

Convinced that international cooperation in the fight against corruption has presently become a necessity due to the increased criminal acts of corruption committed within all States,

Determined to enhance cooperation through the exchange of information, intelligence, good practices, lessons learned and available tools utilized in the evidence-gathering stage (preliminary investigation) in corruption cases,

Expressing their concern regarding the effects of the accelerating evolution of techniques and means that corrupt perpetrators use in committing their crimes, including cross-border crimes, while being able to escape justice and conceal the proceeds of such crimes,

Acknowledging that most existing information and intelligence exchange channels are only effective for specific matters or in some regions, due to existing legal, technical, and geographical constraints; in addition to this, many States face capacity-related challenges, including lack of human, financial, and technical resources as well as external impediments to economic development,

Expressing their aspiration to provide several communication channels for cooperation under the OIC, to ensure a prompt response to requests for

exchange of information and intelligence amongst law enforcement authorities of the States Parties,

Understanding that effective conditions and safeguards for the protection of human rights and fundamental freedoms benefit international cooperation for criminal justice purposes, and that proper attention shall be given to the protection and observance of the due process rights of the individuals or entities concerned,

Have agreed as follows:
